Todd Raymond, principal of Studio Todd Raymond in New York City, sees major upside in upping your spend on custom millwork. We approach millwork as a way to give a cohesive through line to an entire home, says Raymond. For a Chelsea apartment, the client splurged for custom millwork in the dining room, kitchen, family room, and primary bedroom. “We unified the spaces by having the same finish throughout and tied together elements of Japanese design per their request,” he comments.
